As you sail through its 30-mile-long stretch, you can't help but be amazed by the untouched beauty of the surrounding granite mountains, verdant valleys and numerous waterfalls. Drifting icebergs, deep blue waters and a spectacular tidewater glacier only add to this natural spectacle's appeal. Endicott Arm is one of the largest breeding grounds for harbor seals on the planet. Keep your eyes open for these creatures splashing in icy waters near the ship or floating with their pups on giant chunks of ice. Along the shore you might also glimpse brown bears, bald eagles, sea ducks, deer, moose and wolves. Your journey through scenic Endicott Arm Fjord ends with a front-row view of the striking Dawes Glacier. Standing over 600 feet tall and a half-mile wide, this very active icecap is known for its spectacular calving displays which noisily produce huge, chunky icebergs that float in area waters. Remember to dress in wind-resistant layers for viewing scenery outside on deck.
